Berlin, 24. Juni 2016

## The Berlin DJ Alle Farben releases his new album and sets the ground for new hit singles

Berlin/Mumbai, June 24th 2016 On July 3<sup>rd</sup> the new studio album from Frans Zimmer alias Alle Farben was launched. The title "Music Is My Best Friend" is a statement that you can also find in his hit single. The release of "Please Tell Rosie" is currently scoring 17 in the German airplay charts, 3 on Shazam, is in the top 10 of the Spotify charts and within the 10 best on iTunes. That makes the third summer hit within three years. The lead single from his first album "She Moves" (Far Away) reached the top 15 in the European airplay charts, hit gold status and is aiming for platinum in the moment. The coproduction of YOUNOTUS and Anna Naklab "Super Girl" reached platinum already.

The second LP is yet again a cooperation of the native Berliner DJ together with his friends and producers YOUNOTUS as well as Perttu from Finland. Many instruments were recorded live in the studio. In his usual fashion Alle Farben combines catchy beats with charismatic voices. Following the history of Graham Candy (She Moves) and Anna Naklab (Supergirl) the new album features Michael Schulte and Janieck Devy (know for the Song Reality from Lost Frequencies) as well as other great artists. Alle Farben loves to exceed genre boundaries. While "No Ordinary" has a Caribbean touch, "Leaving New York" is a combination of impulsive electronic drive and smooth guitar sounds. "Music Is My Best Friend" is full of liveliness and gets your feet moving.

The live performances of Alle Farben bring him on stage at festivals and clubs worldwide. His tour schedules this summer includes shows at the World Club Dome, Ikarus & Docklands festival, Lollapalooza in Berlin and Chicago as well as SonneMondSterne and Frequency festival. No better could he describe his current life than with his key line from his hit single: „Please tell Rosie - I’m not gonna come back, `till September `cause music is my best friend“.
